HPCC™ SYSTEMS

Flexible and responsive data lake management
with better performance, near real-time results, and full-spectrum operational scale.

YOUR END TO END DATA MANAGEMENT SOLUTION

Helping clients and developers access the data they need by making it easier for developers to **see the data they are working with and to create powerful insights and information as needed** for individual clients.

THE HPCC SYSTEMS ADVANTAGE

A platform purpose-built for high-speed data engineering.
HPCC Systems® key advantage comes from its lightweight core architecture. Better performance, near real-time results and full-spectrum operational scale — without a massive development team, unnecessary add-ons or increased processing costs.

COMPLETELY FREE, OPEN SOURCE DATA LAKE PLATFORM

- Batch, real-time and streaming data ingestion

- Built-in data enrichment and Machine Learning library

- Scalable from a single laptop to many petabytes of data

- Runs on commodity hardware on premise or in the cloud

Take your coding knowledge to the next level:
Enjoy training on us!

HPCC SYSTEMS: IT'S EASIER.

HPCC Systems is offering free courses to build your skills in working with ECL and big data! **Get up to speed fast.**

INTRODUCTORY COURSES

Prerequisite for advanced courses

Introduction to ECL (Part 1)   Introduction to ECL (Part 2)

ADVANCED COURSES

$495 value each (FREE with promo code on hpccsystems.com/training)

Advanced ECL (Part 1)   Roxie ECL (Part 1)
Advanced ECL (Part 2)   Roxie ECL (Part 2)   Applied ECL

Visit hpccsystems.com/training for course overviews and to get started
